
Professional Objective To be working in a position that entails completion of good service, sharing of skills and knowledge, and the exercise of good approach towards other employees and supervisors, with opportunity of career growth and advancement.

Education

1993-1994	Bula Christian School Bula, Gen. Santos City
1994-1999	Calumpang SDA Elementary School Nat'l Highway, Calumpang, Gen. Santos City
1999-2003	General Santos City High School Calumpang, Gen. Santos City
2003-2008	University of the Philippines Mindanao Tugbok District, Davao City BS Applied Mathematics

Government License Civil Service Professional (rating of 92)

College Involvements

Philippine Statistics Quiz (Region XI)
2nd Place, October 2003

- This experience has given me an edge in my Statistics subjects
- This has also allowed me to meet people from other schools; and my only chance to be in a competition while I was still in college

UP Mindanao Interactive Learning Center
Peer Tutor, SY 2004-2005

- I was allowed to share knowledge and skills in subjects like Stat 1, Math 26 and Math 27
- I was given the opportunity to recognize first hand the difficulties I share with my schoolmates from other programs

Society of Math Majors (UP Mindanao)
Secretary, SY 2005-2006

- My first taste of collective leadership in college
- My task was to make letters and keep pertinent documents for and of the organization...though I know now a secretary is required more than that

College of Science and Mathematics – Student Council
AMAT Representative, SY 2006-2007

- Meetings and problem-solving endeavors were added to my schedule– allowing me to develop time management skills

-Leadership and social responsiveness were allowed to expand as I came face-to-face with the needs I share with the AMAT group

**Philippine Coconut Authority (PCA) XI, Mintal, Davao City
Practicum, April-May 2006**

-SPSS was used to manage and treat data on analyzing the market for Tungkalan produce

-a feasibility study on VCO viability was made with stronger data support through the inclusion of statistical analysis

-exposure to society; and how Math can be an important tool to improve the situation

-exposure to how surveys are done: its difficulties; the factors affecting the numbers we see in publish; and how much careful we need to be in referring to those numbers

**Professional
Experience**

**Seattle Language Center, Inc., Bajada, Davao City
Full-Time Faculty**

June 25, 2007 – April 11, 2008

-This experience has made me steps more proficient in written and spoken English as our job, day-in and day-out, requires us to analyze grammar and speak English

-This field, being different from Math, I got more motivated towards learning...seeing there is much in this world to learn especially English which I used to consider a very basic subject

-This gave me experience in handling different class sizes of different age groups, personalities, even culture

**Cyber City Teleservices, Inc., 16 Sobreycarey St., Davao City
Customer Service Representative**

July 7, 2008 – April 7, 2009

-The job allowed me to be an independent thinker while getting the balance of a good team play

-I was tasked to help technicians solve problems of installations for a Cable Service Provider in the US

-Every transaction is time-pressured: each step needs to be documented while trying to imagine and figure out the solution to the problem arising on the field

-Multi-tasking is indispensable...and everybody has to work under pressure with minimal supervision

**Cyber City Teleservices, Inc., 16 Sobreycarey St., Davao City
Acting Statistician**

April 8, 200 – August 7, 2009

-This is the first time the company is hiring a Statistician and that requires me to see and search for myself how I will be of use to the company

-This allowed me to work directly with the top management of a company employing around 700 people in Davao... not counting counterparts from other parts of the Philippines and the world

-An exposure to what Excel can do is also a thing to note

Cyber City Teleservices, Inc., 16 Sobreycarey St., Davao City
Statistician I

August 8, 2009 – January 1, 2010

- My outputs were increasingly affecting management decisions
- I was given access to more confidential files and databases of the company
- Extended hours rendered to the company became more and more frequent as responsibilities and work loads increase

Cyber City Teleservices, Inc., 16 Sobreycarey St., Davao City
Statistician II

January 1, 2010 – March 19, 2010

- I get to be involved in company and client wide business review
- I was already tapped to make statistical reports for another center in Clark Pampanga
- I saw that there is more that can be done in the company...and in society...when certain things have been stressed in schools
